

FOR WINTER

'Cutters' Once Were Vogue

"Jingle Bells" came to life and was more than a song one or two generations ago when winter pleasures were at their highest peak behind a nimble trotter horse winterized with sharp-shod iron shoes and hitched between the shafts of a real cutter.

Whether out of the family barn or from a livery stable, the cutter was immensely popular in its time. With a few hot bricks to keep feet warm and a blanket robe or two for "cuddling," the young man who called for his sweetheart in a cutter was at the height of current fashion.

The picture was contributed by Mrs. Jess R. Jensen, 1621 Princeton ave.

Tribune Centennial Photo

'Twas the Wonderful 'One-Hoss' Sleigh

Almost just like Santa Claus, the trim curves of this old-fashioned "cutter" made it the kind of "one-horse open sleigh" most preferred by

young folks a generation or two ago. J. Earl Petersen, Ephraim, and Rex Goldbrough were the two youths out riding in Sanpete county in 1910.
